The board of directors' proposal to authorize the board of directors to issue new shares, warrants and/or convertible instruments (item 17)

The board of directors in Sensime AB (publ), corp. reg. no 556565-5734, proposes that the annual general meeting authorizes the board of directors, for the time until the next annual general meeting, whether on one or several occasions, to increase the Company's share capital with no more than fifteen (15) percent of the total share capital in the Company when the authorization is utilized for the first time. The board of directors shall be able to resolve on issues of shares, warrants and/ or convertible instruments with or without deviation from the shareholders' pre-emption rights and/or by an issue in kind or by way of set-off or other conditions as referred to in the Swedish Companies Act.

The board of directors shall have the right to determine the terms and conditions for issues under this authorization and who shall have the right to subscribe for the instruments issued. The terms shall be in accordance with market terms. The purpose of the authorization is to enable the board of directors to issue instruments in connection with, for example, acquisitions or entering into collaboration agreements, and to give the board flexibility in the work of ensuring that the Company, in an appropriate manner, can be provided with capital to finance the Company's continued operations and to enable a broadening of the owner base in the Company.

The board of directors, or the person appointed by the board of directors, is authorized to make such minor adjustments to this resolution that may be necessary in connection with the registration with the Swedish Companies Registration Office or other formal requirements.

A resolution in accordance with the proposal requires that it is supported by shareholders representing at least two-thirds of both the votes cast and the shares represented at the meeting.
